18 FEB 1984

MEMORANDUM FOR: Director, National Photographic Interpretation Center

SUBJECT: Appreciation

1. I want to commend the performance of the NPIC photo lab for its outstanding graphics support for a recent DCI briefing. Because key headquarters equipment was broken, we turned to NPIC on extremely short notice to produce briefing boards for an important DCI presentation. I understand that extra shifts and extensive overtime were required, but despite the time pressure and the heavy load, the results reflected the high professional standards of your organization.

2. Please convey my personal appreciation to [redacted]
[redacted] and others who may have contributed to the successful completion of this project.
